

Optimize Operations for Wine & Spirits Industry Vertical

dotSolved bridges operational gaps across producers, distributors, and retailers in the wine and spirits industry vertical through our deep industry expertise and tailored solutions. As trusted process experts and advisory consultants, we help businesses streamline operations, ensure compliance, and achieve scalable growth. By integrating technologies, automating workflows, and driving business transformation, we empower our clients with seamless, end-to-end solutions designed to optimize every step of the journey from roots to retail.

Why dotSolved

Preferred Partner	100+ Business Transformations	Industry Domain Expertise	End-to-End Process Support	Scalable Managed Services
Recognized for tailored solutions specific to the Wine and Spirits industry vertical	Expertise backed by a strong portfolio of business transformation initiatives	In-depth knowledge of manufacturing, wholesale distribution and omnichannel retail business processes	From fermentation to bottling, ensuring seamless integration and operations	Supporting your growth with continuous optimization and system enhancements

Our Expertise - from Roots to Retail

Streamlining Fermentation & Bottling Processes

Tracking Every Stage Across Fermentation to Bottling

- ▶ Tracking raw materials through fermentation and distillation stages. Sub-assemblies (barrel stock) are produced, reflecting labour and machine costs.
- ▶ Managing barrel stock consumption during aging, blending, and bottling stages. Final assemblies are lot-controlled, ensuring quality and traceability

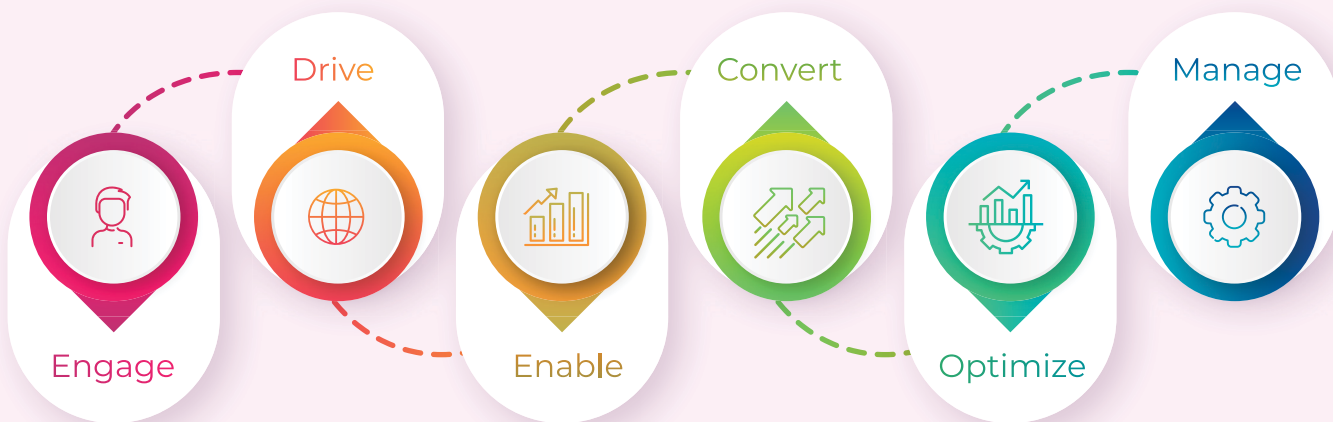

Proof in Numbers

100+ | Business transformations in the Wine and Spirits industry vertical

15-30% | Average increase in operational efficiency post-implementation

99% | Compliance accuracy achieved for customers in complex taxation environments
