

Evaluated Receipt Settlement(ERS)

Automate. Accelerate. Dominate.

ERS for effortless payments,
from dotSolved

dotSolved ERS extension for NetSuite

dotSolved's ERS solution automates invoicing by generating **Self-Billing Invoices** (SBIs) from received goods and purchase orders. This eliminates vendor invoices, streamlines procurement-to-pay, and boosts efficiency with faster, accurate payments.

Key features and capabilities

Automated Invoicing

Instant SBI generation ensures compliance and removes manual tasks

Exception Management

Resolve mismatches efficiently

Three-Way Matching

Aligns purchase orders, goods receipts, and SBIs to prevent discrepancies

Vendor Transparency

Electronically share SBIs for easier reconciliation

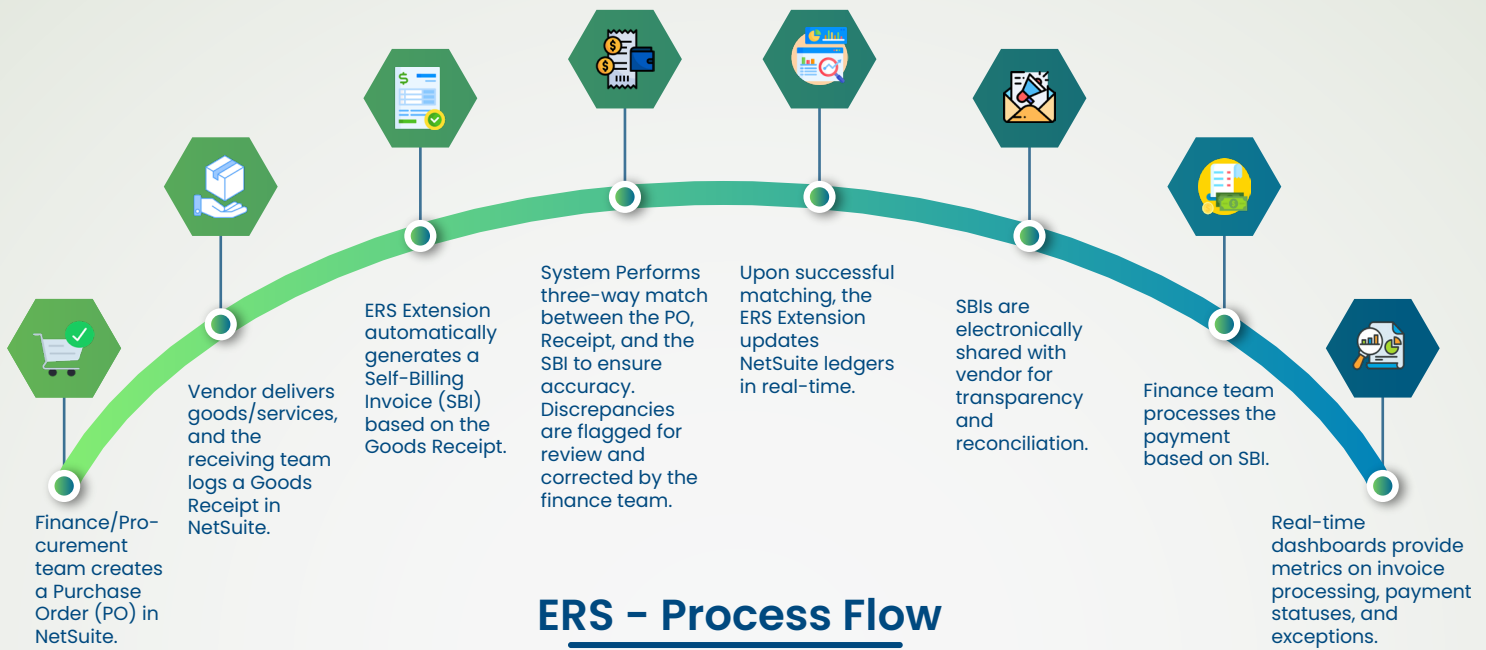

Real-Time Integration

Seamlessly update Netsuite ledgers

Comprehensive Reporting

Real-time dashboards provide actionable insights

Business Benefits

- For CFO & Finance**
 - Cost Reduction:** Minimize manual invoice processing
 - Enhanced Accuracy:** Built-in audit controls reduce errors
 - Improved Cash Flow:** Capture discounts and streamline payments
- For Vendors**
 - Timely Payments:** Build trust with consistent payouts
 - Simplified Reconciliation:** Align SBIs with vendor records easily
 - Financial Predictability:** Transparent payment timelines
- For the Organization**
 - Operational Excellence:** Automation boosts productivity
 - Regulatory Confidence:** Effortless tax and audit compliance
 - Scalable Growth:** Adapts to evolving business needs

Results delivered for our Clients

- 30 - 40% faster invoice processing
- 45-60% fewer payment discrepancies
- Happier vendors with on-time, accurate payments
